DIN 13 167 First-aid bag for motorcycles

Description of product

Ref. No. 41100

Ref. No. 41110

Although the carrying of first-aid bags on motorcycles is not yet a legal requirement in Germany, there is already an appropriate standard, DIN 13 167, which specifies the contents. First-aid materials are required for slight injuries as well as for emergencies. The practical HEPP "emergency kit" also helps motorbike, scooter and moped riders provide first-aid to others in need.

First-aid bag for motorcycles (Ref. No. 41000)

- Contents: Comply with the applicable standard DIN 13 167
- Material: Outer cover made from high quality nylon with water-repellent PVC coating, zip fastener
- Colours: Red or black; imprint: contrasting colours
- Dimensions: Approx. W 195 x H 135 x D 40 mm
- Weight: Approx. 0.3 kg
- Information: The DIN-compliant contents are protected against dust in a mini-grip bag and the whole bag is protected from moisture inside a further bag. The first-aid material should always be kept up to date, especially in Germany where providing first-aid is a legal obligation.
- Note: If desired the bag can be supplied as a mini-version with dimensions of approximately W 160 x H 120 x D 40 mm; special imprints/colours with company logos are available.
