You could require first-aid materials for your own safety or to provide first-aid to others anywhere or at anytime. We tend to overlook the risk of injury in our pursuit of sport or hobbies even though the danger is very great. Our handy bags detailed below are perfect for this first-aid situation. They are based on years of experience and follow the principles given in the DIN standards for first-aid boxes. A practical nylon bag with hook and loop fastener, the handy bag provides a useful and compact means of carrying the first-aid materials necessary for all situations, e.g. for skating, skiing, hiking or cycling.

This bag is supplied sealed in a transparent PE pouch.
